PROFESSIONAL SUMMARY

Software Developer, .NET Developer, and Automation Developer with experience in the full Software Development Life Cycle (SDLC), from requirements gathering to production deployment. Skilled in C#, ASP.NET, .NET Core, Microsoft SQL Server, LINQ, Entity Framework, RESTful API development, Blazor, and workflow automation using GoHighLevel (GHL) and Zapier. 3+ years of software development experience delivering 3 enterprise systems across banking, lending, and payroll.

WORK EXPERIENCE

Website & Automation Developer | Physically Primal | July 2026 - October 2026

- Developed funnels and website based on the requirements design of the client.
- Developed workflows automation based on the business process requirements of the client.
- Maintained and enhanced existing websites, debugging, and bug fixing for the existing workflows.

Technologies: GoHighLevel (GHL), Zapier, HTML, CSS, and JavaScript

Software Developer | H2 Software Consulting Services, Inc. | July 2023 - July 2026

CTBC Bank | July 2025 - July 2026

- Participated in the full SDLC using Waterfall methodology, from requirements and data gathering with business users through to production deployment.
- Prepared and maintained project documentation; supported System Integration Testing (SIT) and User Acceptance Testing (UAT).
- Assisted in deploying applications to production and performed post-deployment validation to ensure system stability and accuracy.

Technologies: C#, .NET Core, ASP.NET Core Web API, Entity Framework Core, Microsoft SQL Server, SSIS, and Oracle

Triple A Lending Company (from Scratch) | August 2024 - July 2025

- Collaborated with stakeholders to gather requirements and translate them into functional modules for a full lending management system; built 3 key features including client loan processing, cash tracking, and reporting dashboards.
- Implemented secure role-based access control (RBAC) and RESTful API protection using JWT tokens with robust data validation and error handling.
- Optimized database performance using Microsoft SQL Server, LINQ queries, and stored procedures; handled production deployment via IIS and managed version control using Sourcetree and GitLab.

Technologies: C#, ASP.NET, .NET Core, Blazor, MudBlazor, Entity Framework Core, LINQ, Microsoft SQL Server, ASP.NET Core Web API, IIS, GitLab, and Sourcetree

H2 Pay - Payroll | July 2023 - August 2024

- Debugged and resolved system issues ensuring smooth performance across payroll and timekeeping modules.
- Maintained and enhanced existing features based on user feedback and business requirements.
- Created and maintained technical documentation to support ongoing development and future maintenance.

Technologies: HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap, C#, ASP.NET, .NET Framework, and Microsoft SQL Server

Rig Admin | Pacific Seamen Services Inc. | January 2022 - February 2023

- Manage crew logistics including room, hotel, and flight or chopper arrangements, plus tracking crew movement and onboard lists.
- Handle admin tasks such as flight bookings, emails, timesheets, and rig documentation.
- Provide administrative support to the Master/Rig Manager, including weather reports for chopper flights.

Sales Clerk | Homeworld Shopping Corporation | April 2019 - May 2020

- Greet customers warmly and help them find what they need.
- Keep track of items running low and assist with restocking.

- Help customers complete their purchases and keep the storeroom clean and organized.

IT Staff | Win Fortune Travel Agency Inc. | June 2018 - February 2019

- Monitored and maintained computer systems and networks; handled system and network troubleshooting.
- Performed maintenance and repairs on desktops and printers; managed IT documentation and reporting.

IT Technical Support | AMTI | February 2017 - May 2018

- Configured hardware units, set IP addresses and DNS servers; updated Symantec antivirus and Windows systems.
- Set up DNS server to enable VM Windows XP machines to join the network domain.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

ICCT Colleges - Cainta, Rizal | 2013 - 2016

SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX, Blazor (Server & WebAssembly), MudBlazor, Angular

Backend: ASP.NET, .NET Framework, .NET Core / .NET 4-8, C#, LINQ, Entity Framework (EF & EF Core), ASP.NET Core Web API, Worker Services

Database: Microsoft SQL Server, Oracle, SSIS (SQL Server Integration Services)

Security: JWT (JSON Web Token) authentication, Role-Based Access Control (RBAC)

Tools & Platforms: GitLab, Sourcetree, Git, Postman, Swagger, IIS, GoHighLevel (GHL), Zapier

Methodologies & Practices: Software Development Life Cycle (SDLC), Waterfall, Scrum, requirements gathering, System Integration Testing (SIT), User Acceptance Testing (UAT), technical documentation, debugging, troubleshooting, production deployment
